

FUEL SYSTEM CLEANER

Prolong[®] Gasoline Fuel System Cleaner is formulated to thoroughly clean the entire fuel system including pumps and injector tips, as well as add lubricity to the fuel. A fuel system free of carbon build-up with a full, uninhibited spray pattern for optimum firing is essential to smooth, efficient operation and maximum fuel economy. Cleaning the fuel system is especially critical for correcting the effects of stop and go driving and fluctuating gasoline quality, which can rob your vehicle of optimum performance and gas mileage. Prolong[®] Fuel System Cleaner is compatible with all grades of gasoline and effective for at least 3,000 miles.

PRODUCT OVERVIEW:

- Cleans entire fuel system including pumps and injectors
- Contributes to low exhaust emissions, peak performance and optimum gas mileage
- Helps achieve maximum fuel combustion
- Compatible with all grades of gasoline
- Use every 3,000 miles

DIRECTIONS:

- Add to the gas tank when nearly empty and then completely fill the tank with fuel.
- Treats up to 20 gallons of gasoline.
